

Davis+Gilbert Insolvency + Finance Webinar | Subprime Auto: Participants' Expectations in a Time of Crisis, a 360-Degree Market Study

The Davis+Gilbert Insolvency + Finance practice group and authors of Credit Chronometer will be presenting a webinar focused on the subprime auto market. Industry players — originators, investors, servicers, trustees and their advisors — will especially find topics discussed of interest.

Overview

Historically, the vulnerability of subprime borrowers to economic shock has been subprime auto participants' biggest fear. Now that such a shock is here, we polled over 100 participants of all types, including originators, investors, trustees and servicers, to gauge and compare market sentiment versus our studies done in 2019 and pre-Covid 2020.

It's time for participants to buckle up and consider the road ahead. This webinar will help participants plan their next move by revealing expectations and surprising variances across market groups related to such factors as:

- · Expected performance trajectory
- · Credit enhancements' ability to protect investors and obtain desired ratings
- Layered risk and credit extensions

Special Guests:

- Ines Beato, Senior Vice President, US ABS Global Structured Finance, DBRS Morningstar
- Sean Morgan, Vice President of Finance, Westlake Financial Services

Davis+Gilbert Speaker:

Joseph Cioffi, Chair, Insolvency + Finance Practice Group

Webinar Details

Date: Wednesday, June 24, 2020

Time: 1:00 p.m. (EDT) Location: Webinar

About Credit Chronometer

Economic, political and legal events impact loan and credit markets, each time moving us closer or farther away from a cycle's end, a crisis' beginning or the next boom. From the perspective of lawyers and other professionals who have lived through past cycles, Credit Chronometer™ is an award-winning blog dedicated to analyzing the effects of these events on future performance and participants' legal exposure.

Receive the latest credit market insights right to your inbox, and be sure to receive our second annual 360-degree market study "Participants' Expectations in a Time of Crisis".
