# EU & UK Compliance Forum: Managing AI, Privacy & Compliance Risk

Just as in the United States, regulation is moving fast, and enforcement is accelerating across the UK and the EU, reshaping how data, digital advertising, and AI are deployed in real time. For businesses today, the stakes continue to climb higher than ever before. Join us for a focused, forward-looking conversation that cuts through the noise, delivers clear, practical insights, and equips you with the strategies needed to protect innovation, unlock opportunity, and compete confidently in a rapidly evolving global landscape.

## What You'll Learn

- **AI Trends & Compliance Strategy:** AI adoption accelerates while regulatory frameworks take shape. We share the real-world use cases we are seeing across the market, the guidance we are providing clients, and how regulators in the UK, EU, and beyond are responding. We also compare developments in the United States and identify opportunities to align compliance strategies to support a cohesive and scalable global approach.
- **Regulatory & Legislative Developments:** The regulatory landscape across the European Union and the United Kingdom continues to evolve at pace. We break down the laws shaping the market, spotlight the changes that matter most, and surface the business critical issues that demand attention, including privacy regulations such as, the EU Digital Omnibus, Data Act, Digital Markets Act, and Digital Services Act, as well as the UK Data Use and Access Act and cybersecurity regulations like, the EU NIS2 framework and the UK Cyber Security and Resilience Bill.
- **Enforcement in Action & Emerging Trends:** Enforcement activity intensifies across jurisdictions. We analyze headline developments, including TikTok's €530 million international data transfer fine, the ongoing Clearview AI rulings across multiple countries, and the Court of Justice decision in *X v Russmedia Digital C-492/23*. We also examine the continued scrutiny from the ICO and EU data protection authorities on consent or pay models and what it signals for the future of digital advertising.

## Legal CLE Credit Available

This program has been approved in accordance with the requirements of the New York State Continuing Legal Education Board for a maximum of **1 credit hour** in the area of Professional Practice. The content of this course is appropriate for both newly admitted and experienced attorneys.

Davis+Gilbert is an accredited provider of CLE credit in the State of New York. Those seeking CLE credit in other jurisdictions should reach out to their State Bar for instructions on how to apply for credit.
